Testing the Water Supply.

Higginsville Advance:
For several weeks the city authorities have been casting about for some means of increasing the water supply for the city. Monday a pump was put in a well on the property of G. A. Rasch near the LaCrosse lumber yard and kept running by means of a gasoline engine for 24 hours without perceptible decrease in the well. Pipes were then laid temporarily to the large reservoir at the power house and the pump has been kept busy night and day since, averaging about 15,000 gallons of water per day. The reservoir will soon be full of water and if the water supply proves sufficient permanent arrangements will be made for carrying the water to the power house. The city has an option on the property on which the well is located. The well is 118 feet deep and has never been known to fail. The water is splendid for drinking purposes and it is to be hoped the experiment will prove all that was expected.

Wellington News: Some of our exchanges at a distance are blowing about their bumper corn crop this year and say in their locality corn will make an average of 30 or 35 bushels to the acre. Well that is fine isn't it? In and around Wellington we will be compelled to confess that our corn crop is nothing to brag about, as it was cut short by the drouth and will not average over 60 bushels to the acre but we know of several fields in Egypt bottom that will make between 90 and 100 bushels to the acre.

THE BRAETH OF LIFE.

It's a significant fact that the strongest animal of its size, the gorilla, also has the largest lungs. Powerful lungs means powerful creatures. How to keep the breathing organs right should be man's chiefest study. Like thousands of others, Mrs. Ora A. Stephens, of Port Williams, O., has learned how to do this. She writes: "Three bottles of Dr. King's New Discovery stopped my cough of two years and cured me of what my friends thought consumption. O, it's grand for throat and lung troubles." A SUDDEN TWINGE

Of pain is generally the first warning of an attack of rheumatism. It feels as if the disease were in the bones or muscles, but the real cause of rheumatism is found in impure blood. In order to cure rheumatism the blood must be cleansed of the poisonous impurities which are the cause of the disease.

Dr. Pierce's Golden Medical Discovery has been very successful in the cure of rheumatism, because it entirely cleanses the blood from the poisonous uric acid which is the cause of the disease.

"Your 'Golden Medical Discovery' cured me of rheumatism after I had tried a dozen remedies without relief and often unable to dress myself. I used a number of highly recommended medicines, but they had no effect whatever on me, and I came to Colorado hoping to regain my health, but failed to obtain the relief I had hoped for. A gentleman in the house where I lived advised me to use Dr. Pierce's Golden Medical Discovery, and in four months and a half after I began using it I was a well man and have had no touch of it for the past seven months."

The sole motive for substitution is to permit the dealer to make the little more profit paid by the sale of less meritorious medicines. He gains; you lose. Therefore accept no substitute for "Golden Medical Discovery."

These tiny, sugar-coated antilithic granules regulate and invigorate Stomach, Liver and Bowels. Do not "beat the pill" but cure constipation. One or two each day for a laxative and regulator, three or four for an active cathartic. Once tried always in favor. Put up in vials; always fresh and reliable.

All of the elections held this year plainly indicate to the political observer that this is a Democratic landslide year. Elections have been held in four States—Oregon, Arkansas, Vermont, and Maine. Three of these States as every one knows, are usually overwhelmingly Republican. In the spring election in Oregon the Republican majority was very greatly reduced. In Arkansas the Democrats hoped to get from 40,000 to 50,000 majority. When the returns were all in it was found that the majority was about 61,000. In Vermont the Republicans carried the State by about 14,000, which is the smallest Republican majority that has been given in Vermont in the last sixteen years. In 1890, Vermont, in the September election gave a majority slightly smaller than this. That turned out to be a Democratic landslide year. In Maine, four years ago, Governor Hill was elected by the Republicans by more than 25,000 majority. This year Governor Cobb was elected by less than 8,000. Congressman Littlefield's majority was cut down from 5,500 to less than 1,000.

STARVING TO DEATH.

Because her stomach was so weakened by useless drugging that she could not eat, Mrs. Mary H. Walters, of St. Clair St., Columbia, O., was literally starving to death. She writes: "My stomach was so weak from useless drugs that I could not eat, and my nerves so wrecked that I could not sleep; and not before I was given up to die was I induced to try Electric Bitters; with the wonderful result that improvement began at once, and a complete cure followed." Best health tonic on earth. 50c. Guaranteed by Crenshaw & Young druggist. 9-1ml

Odessa Democrat: Misses Mary Glascock, Mildred Martin and Alta Wagoner left Wednesday for Lexington where they enter Central Female College.

In these days of rush and hurry courtesy is often forgotten. In the mad, pell rush of our life little things are done to offend that we rather remained undone. A hastily eaten meal and its resultant headache may cause us social or financial loss. The wise man or woman is the one who relieves little ills of this sort by a little dose of Kodol For Dyspepsia. It digests what you eat and puts your stomach back in shape. Sold by Crenshaw & Young. 9-1ml

Odessa Democrat: Thousands of barrels of apples are being brought to Odessa daily and sold to the Odessa Cooperage Co. The M. L. Brannan orchard near Chapel Hill will furnish 5000 which will be brought here. About 15 men and women are employed at the apple depot.

A bath cleanses the skin and rids the pores of refuse. A bath makes for better fellowship and citizenship. Not only should the outside of the body be cleansed, but occasional use of a laxative or cathartic opens the bowels and clears the system of effete matter. Best for this are DeWitt's Little Early Risers. Pleasant little pills that do not gripe or sicken. Sold by Crenshaw & Young. 9-1ml

Odessa Democrat: The Home Telephone has been purchased by a stock company composed of several of our business men and many of the farmers of this community. A lack of space forbids us giving the details of the trade. Directors have been elected and officers will be elected soon. This town and community will be better off when it has but one telephone system, which is anticipated as soon as the new company get their lines in shape.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 15 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. CHENEY & Co., Toledo, Ohio. Sold by Druggist, 75c.

VAIN OF THEIR PETTICOATS.

Garments Most Prized Possession of Indian Women.

The prized possession of the Bolivian Indian woman and her chief pride also, whether she is pure Indian or chola, is her petticoat. Her dowry is in this garment. Like the Dutch woman of tradition, she carries her wealth about with her. These petticoats are of all colors of the rainbow and divers other hues not found therein. I first noticed them at Nazarene, and remarked the love of color, which must be inborn, for the garments were of yellow, purple, violet, fiery red, crimson, scarlet, subdued orange, glaring saffron, blue and green. They were very short, reaching barely below the knees, and no difference was observed between childhood, maidenhood, matronly middle life and wrinkled old age. Glancing from my window in Tupiza, I thought it was a parade of perambulating balloons.

These women have a habit which the bashful traveler does not at first understand. When he sees one of them calmly removing a petticoat he is apt to turn away, but he need not do so. It may be that the advancing heat of the day has caused the wearer to discard the outer skirt, but more likely it is the vanity of her sex, and the desire to make her sisters envious by showing what is beneath, for each new venture disclosed is more brilliant than the one which overlapped it. I sat in the plaza at Tupiza and watched two Indian women try to make each other envious. The first one removed the outer petticoat, which was of purple. This divestment disclosed another garment of blazing red, and after that came a brilliant yellow. The other woman started with a green petticoat, and gradually got down to a mixture of blue and yellow. By that time I had begun to fear for the consequences, and made a pretense of turning my back by strolling to the hotel.—National Geographic Magazine.

RESTLESS BIT OF EARTH.

There is near Trauensee, a Thuringian summer resort, a curious floating island which drifts about Hauensee, a charming lake. At present the island is moored alongside the public road. The little island has its own flora, varying from that on the immediately adjacent mainland, among which may be mentioned the "meat consuming" Drosera rotundifolia, while flowers and edible berries grow here in rank profusion and slender birches cast their shade over those who care to land and investigate this restless little patch of earth. Birds are especially partial to this spot, wild ducks and other aquatic birds breeding here in great numbers. But the event of the year is the "Volksfest" held upon the island every Ascension day, when dancing and "bratwurst eating," washed down by the obligatory beer, is the order of the day.—Exchange.

THE GALLANT DOCTOR.

"Do you think it will take, doctor?" asked the charming young girl who had just been vaccinated.
"Well," replied the gallant doctor, "if it doesn't take on an arm as pretty as that I'll have no respect for vaccine hereafter."

THE WILL AND THE WAY.

Chinnem—The doctor says I need a good rest.
Mrs. Chinnem—But you can't leave your business.
Chinnem—I know it; but you can visit your mother for a couple of weeks, can't you?
